

## Kuitpo Forest Location

Kuitpo Forest Reserve is situated approximately 50 km south-east of Adelaide in the Mount Lofty Ranges. The Kuitpo Forest Information Centre is located on Brookman Road 6 km south of the town of Meadows (refer to location map).

## Multiple Use Trails

Walking, cycling and horse riding are all popular activities in Kuitpo Forest Reserve. The Heysen (walking) and Kidman (horse riding) Trails both pass through the Kuitpo Forest Reserve.

Within Kuitpo Forest Reserve, there are four multi-use trails and one short walking/cycling trail. For more information regarding the extensive trail network within Kuitpo Forest Reserve, please visit or contact the Kuitpo Forest Information Centre.

Ironbarks Picnic Area

## Forest and Trail Code

The forest trail and road network is used by walkers, horse riders and cyclists. To ensure everyone's enjoyment and safety please consider:

- For your safety, avoid areas where access is restricted, including where forestry operations are in progress. Look out for warning signs.
- Always wear a helmet when cycling and horse riding and travel at a safe speed according to your experience, track conditions and terrain.
- Consider other users. Walkers give way to cyclists and both should give way to horse riders. Courtesy is the key.
- Avoid steep, muddy or loose trails and surfaces, where the tracks you leave behind can channel water and cause erosion.
- Dogs must keep to designated trails and be controlled on a lead at all times.

# Onkeeta Trail

## KUITPO FOREST

## Onkeeta Trail Location

The Onkeeta Trail is a marked 10 km multi-use loop trail for walkers, cyclists and horse riders. The trail can be accessed from the Kuitpo Forest Information Centre by following Wickhams Hill Road and Peters Creek Road.

Native Forest Reserves offer the opportunity to see a rich variety of native flora and fauna species. The endangered Yellow Tailed Black Cockatoo can often be seen in the area.

Hiking along the northern section of the Onkeeta Trail.

## Trail Classification and Markers

The Onkeeta Trail is marked and classified in line with Australian Standard AS2156 and is identified as a Class 3 track in a natural area.

The trail is classified as a **Moderate Hike** and is suitable for bushwalkers with an average level of fitness. These trails can be any length and may include moderate inclines and irregular surfaces.

The Onkeeta Trail is identified with map orientation plates, checkpoint markers and trail markers to assist with navigation. Examples are shown below:
